

General data

- **Type of activity:** Game
- **Developed abilities:** Vocabulary and pronunciation
- **Language work:** Alphabet
- **Lexical fields:** Names of the letters

Description of the activity

1. Give each student a blank bingo card such as the following one:

INITIAL LETTER ★ BINGO			

2. Explain to the students that they will write different words with different initial letters in each of the blank squares. **There must not be two words with the same initial letter.**
3. Give the students some time to fill the squares and help the ones who need help.
4. When they are all finished writing, you will randomly choose letters from the alphabet and announce them out loud.
5. The students must mark the words that begin with the letter you announced and also read the marked words out loud, so everyone can listen to different examples of words and also check if what they marked is correct.
6. Repeat the process until one student marks all of their words and yells 'bingo'.
